

KWIK-THERM® *Digital Pocket Thermometer*

Description:

KWIK-THERM® PAD

The **KWIK-THERM®** (U.S. Patent #5,018,875) is a digital temperature indicator that has a swiveling head which makes it easy to read at any angle. The swiveling head allows it to be placed flat in your pocket. It has a 0.1° resolution, an instant update button, 15 second automatic update, and continuous display. The **KWIK-THERM®** uses a standard #393 battery (included). Low drain circuits provide long battery life, eliminating the need for an ON/OFF button.

KWIK-THERM® PED

The **KWIK-THERM®** PED is a digital temperature indicator that has a unique automatic OFF switch, which turns it off after a minute without use. Minimum and maximum temperature readings can be made. It also has a °F/°C selection switch and a temperature hold button, and it is water proof.

The **KWIK-THERM®** thermometers are individually blister packed, allowing for convenient rack display, and each comes with a probe sheath.

Model Selection:

Model	Range	Accuracy	Stem
PAD-300	-50°/+300°F	±1.0°F	5" Stainless Steel
PAD-300/C	-46°/+150°C	±0.5°C	5" Stainless Steel
PED-392	-40°/+392°F -40°/+200°C	±2.5°F	2.75" Stainless Steel
