

Pocket Dial Thermometers

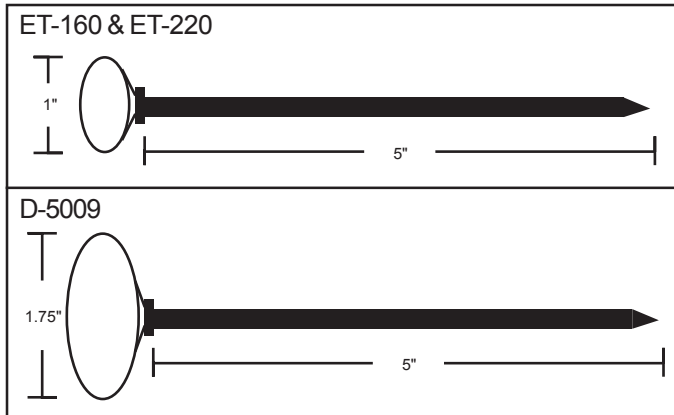

Description:

PSG's pocket bi-metal dial thermometers are designed to be very durable. They come in two dial sizes with a clear plastic lens, a five-inch stainless steel stem, and a convenient polyethylene tube with clip/holder. The 1" dial size is available in two different temperature ranges, and the 1-3/4" dial size has both fahrenheit and celsius scale temperature markings.

These thermometers are ideal for use in industrial applications, such as testing asphalt, chemicals, etc.

Dimensions:

Model Selection:

Model	Dial Size	Temp. Range
ET-160	1"	-40° to +160° F
ET-220	1"	0° to +220° F
D-5009	1-3/4"	0° to +220° F

Warranty:

PSG controls carry a "limited 1 year warranty" against defects in workmanship and materials (contact PSG for full warranty policy). Product will be considered "misapplied" if the control is exposed to corrosive environments and ordered without "conformal coating", and the control will not be considered for warranty replacement or repair.
